More information and registration – www.pasauliolietuviai.lt/sip

FACTS AND FIGURES ABOUT SIP

- SIP has a history of more than five years.
- Its alumni body consists of over two hundred students from the US and Canada.
- Many of the participants have matured from students to young professionals, and they talk about their experience in Lithuania as of tremendous value and significance in both professional and intercultural learning and personal growth.
- The internships range from finances and economics, politics and international relations, to medicine and social work, as well as the arts.
- Participants do not just follow their professional assignments; during the six weeks of their involvement they visit museums, attend lectures, visit historical sites and participate in a wide range of social and cultural events.

ABOUT WLU

World Lithuanian University (WLU) is an initiative inspired by joint efforts of Lithuanian and Diaspora scientists who contributed to the re-establishment of Vytautas Magnus University a quarter-century ago. It became a pattern for further collaboration that fosters creative exchange between scientists and students from Lithuania and other corners of the world, unites the Lithuanian Diaspora, and aims to attract everyone interested in modern Lithuania, its daily life, traditions and culture.

WLU is involved in a variety of activities: VMU Summer Academy events, study and internship programs for students and researchers, Lithuanian education projects, etc. At the same time, WLU functions as a conceptual, virtual entity, which is open to various initiatives.

ABOUT VMU

Vytautas Magnus University (VMU) cherishes and encourages intellectual exchanges, culture, openness and international collaboration as its core values. We are proud to say that VMU is the only higher institution in the country and one of the few in the region where a wide liberal arts education is imparted. Here at VMU we aim to promote knowledge along with freedom and creativity. University also distinguishes itself by fostering interculturalism and multilingualism: 30 foreign language courses are offered and, as a reflection of global trends, more and more lectures are taught in English, many of them by professors from abroad.
