# The university in Gyeongnam: keeping pace with the world ACTIVE GNU!

As the national flagship university in Gyeongnam, GNU develops quality students through its specialized fields of study and creative education. We are strengthening our competitiveness on par with world universities through specialized research and education systems and policy.

#### **ACTIVE Education**

30 educational programs in specialized departments

- Established a student-centered educational system
- Set up an educational achievement index
- Created an enthusiastic educational environment
- Promoted its employment rate and attracted gifted students

#### **ACTIVE Research**

30 research programs to advance cooperation with industry

- Established a research support system
- Taking a balanced approach of developing and specializing its areas of research

**ACTIVE GNU** 

**Strategies** 

- Expanded research funding
- Broadened converged research and collaboration with industry

#### **ACTIVE Outreach**

30 outreach programs for the local community

- Strengthened its status as a flagship national university
- Focused on local community outreach
- Initiated international exchange
- Tightened public relations with the local community

\* ACTIVE : Ambitious, Creative, Team-minded, Innovative, Voluntary, Energetic

**70**억원 교육부, 지역선도대학육성사업(2014년) UNIQUE

Collaborative Academic Program (3+2 years) with the University of Missouri (USA)

Government Funding of KRW 16.5 billion ONLY

Selected as a Core Bio-IP Anti-aging Industrializing Platform (2014)

University Project (Ministry of Land, Infrastructure & Transport)

Leiden Ranking 2014 (the Netherlands) in top 10% of cited papers)

Leiden Ranking 2014 (the Netherlands) in top 10% of cited papers)

**FIRST** 

Recognized for Personality Education Program, first among four-year colleges in the nation

**TOP 7** 

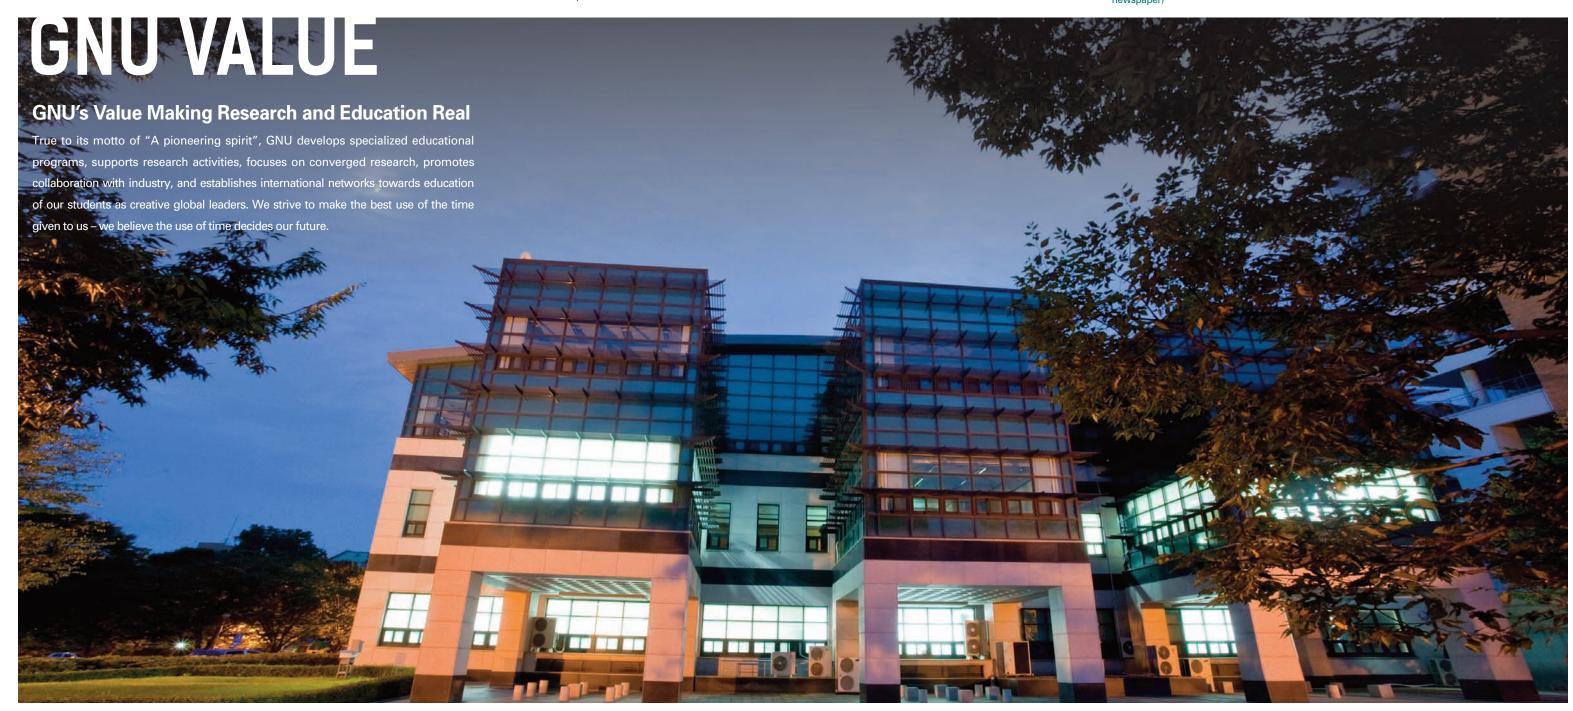

Selected as a University for Creative Korea Project with funding of KRW 27 billion (Ministry of Education)

6 Yesrs

**BEST** 

Development enterprise six times in a row

"Top 1%" in citation of academic papers in international journals: 7th in the nation and 1st among local universities (Joongang Daily

## **GNU's specialized** fields of study leading future science and technology

GNU is educating students to be professionals, leading the world in science and technology through its specialized fields of life science, aerospace & mechanical systems, and nano & advanced materials. In line with world science's mission of taking responsibility for the future of mankind, these specializations are increasing GNU's international competitiveness.

#### **Life Science**

#### Life science improves the world

GNU was selected to support three major nationwide enterprises - the Science Research Center (SRC) by the National Research Foundation of Korea, and the National Core Research Center (NCRC) and Medical Research Center (MRC) by the Ministry of Education.

- GNU's Core Bio-IP Anti-aging Industrializing Platform will receive funding of up to KRW 16.5 billion over five years.
- Selected as an Agricultural Science Next Generation Human Capital Education Enterprise for BK 21 PLUS Project (2013)
- Produced the first transformational red fluorescent cloned cat
- Received the highest rating as a National Core Research Center (NCRC) for the past seven years
- Selected as the Systems & Synthetic Biology Agro-biotech Center for Next-Generation BioGreen 21 Enterprise by the Rural Development Administration
- Selected as a Response to Changing Climate Enterprise for World Class University enterprise by the Ministry of Education
- Selected as a Promising Convergence Technology Pioneer Project (Pioneer Research Center for Controlling Dementia with Converging Technology)

KRW 14.1 billion

Selected as a World Class University enterprise by the Ministry of Education

Selected as the only local university to work on two different project types

## Aerospace & Mechanical Systems

#### Cutting-edge technology for the future

Opening a path of aerospace skills presenting infinite possibilities and potential, Gyeongsang National University is developing highly-skilled professionals ready for leadership in development of new technologies in mechanical & aerospace engineering.

- Selected as a Next-Generation Mechanical and Aerospace Creative Engineers Education Program for BK21 PLUS Project (2013)
- BK21 Advanced Mechanical & Aerospace Engineering Education enterprise for 2nd stage of BK21 selected by the Ministry of Education
- Designated a Degree & Research Center (DRC) by the Ministry of Education
- Development of next-generation computer systems for aircraft
- Participated in KT-1 and T-50 robot plane development

## Nano & Advanced **Materials**

#### Opening up a new world with nano technology

GNU's Nano & Advanced Materials Engineering was selected as a Future-Promising Convergence Pioneer enterprise and World Class University enterprise, which proves its significant role in the nano industry, a newgrowth business. Our study of Nano & Advanced Materials has been developing professionals through extensive research since the establishment of the Samsung OLED Research Center.

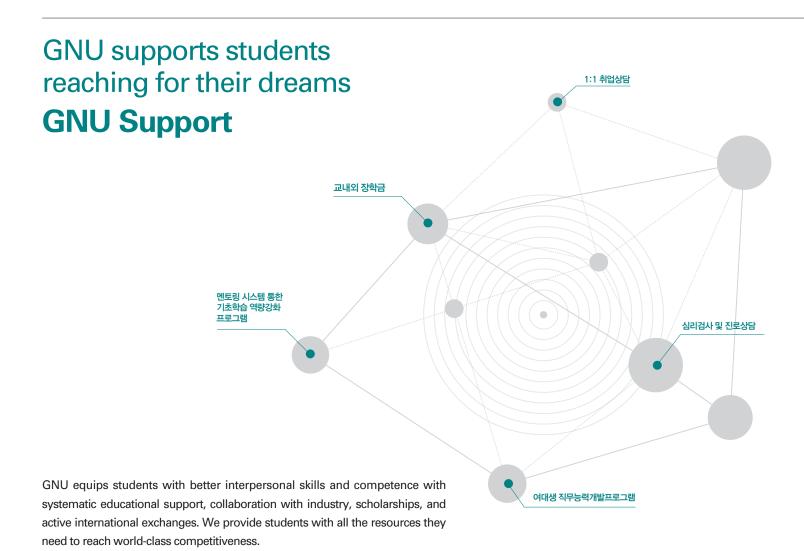

- Three consecutive years at the top in the 2nd stage of BK21
- Development of the world's best organic semiconductor material
- Development of bending and elastic plastic semiconductor substance
- Promising Convergence Technology Pioneer Project
- Selected as a Center for Nano Bio-Chemical Materials Enterprise for World Class University Project
- Development of a highly efficient plastic semiconductor

GNU is in the process of building an Aerospace Hall of Industrial-Academic Cooperation, opening in 2015

Body-transplantable convergence-type nano battery/bio-fuel battery power system enterprise with a funding of KRW 6 billion over six years

## **Global Connections**

#### Professionals moving the globe with a pioneering spirit, Opening doors of opportunity

GNU strives for world-class competitiveness as a reliable, sustainable institution. We provide students with multiple global opportunities – overseas language programs, overseas onsite learning programs, joint degree programs, and exchange programs, among others. Beginning in 1981, GNU has run global programs in 29 nations with 136 universities, 9 institutions and 15 research centers, 9 high schools and 1 middle school.

- Collaborative Academic Program with the University of Missouri
- Joint PhD program with Purdue University and the University of Missouri (USA)
- GNU Lab at Scripps Research Institute at Purdue University
- Symposiums with Germany's Max-Planck Research Institute
- Joint PhD program with the University of Copenhagen (Denmark)
- Student Exchange Programs
- Duel Degree Programs for Undergraduate Students
- Summer Program with Shimane University (Japan)
- GNU Buddy Program for New International Students

The United States / Japan / China / Russia / France / the United Kingdom / Canada / Germany / New Zealand / Italy / the Netherlands / Uzbekistan / Poland / Australia / India / the Philippines / Vietnam / Cambodia / Hong Kong / Taiwan / Mongolia / Kazakhstan / Saudi Arabia / Indonesia / Kyrgyzstan / Thailand / South Africa / Ireland / Denmark

## **Educational Support**

#### GNU is a growth engine for student dreams.

GNU is a foundation of support for student dreams through diverse educational programs, and in particular, hands-on collaborative programs with industry: paths on the way to realizing dreams.

- Employment program in collaboration with industry
- Mentoring program to help students adapt to school life and improve their basic learning aptitudes
- Improvement of school competitiveness on the international scene
- Personality building program for a spirit of service and better relations
- Support for faculty education seamless online/offline education

## **Career Development Programs**

#### raising student confidence as they seek their future careers

Along with its focus on research, GNU assists students with their career plans and builds their competence. With such support, students find the right job, confident despite the nation's difficult job market.

Communication Program

development and gender

development program

awareness

Education

• Courses for female student career

• Female student job performance

• Career path and employment

programs through support from

the Ministry of Employment &

Labor and the Ministry of

- Career counseling and psychological tests
- New student surveys and attitude surveys of the student body
- Career camp
- Job fairs and campus recruiting
- Support for student job search clubs
- Mock Aptitude Test
- Provision of employment information and recommendation of students for positions
- One-on-one career counseling
- Female student career design and action strategies
- Female Empowerment

#### ir future careers A great number of rec

#### A great number of recipients, the best benefits

GNU sponsors students full of passion and spirit. As of 2014, a total of 44,831 students (95% of the registered student body) received scholarships, moving forward to realize their dreams through generous financial support in the midst of financial difficulty.

- Twenty-one types of university scholarships
- Six types of government scholarships

**Scholarships** 

- Fifty-four types of external scholarships
- Two types of school foundation scholarships

GNU Pioneer Scholarship / GNU Leaders Scholarship / GNU ACTIVE Scholarship / Scholarships for good grades and financial relief / Government Scholarship (Type 1) / Government Scholarships (Type 2) / Government scholarships for students in the natural sciences and engineering / Government scholarships for students in the humanities and social sciences / Science scholarships from the University President / Work scholarships / Farming & Fishing Hope Foundation scholarships / Mirae Asset scholarships / Lotte Foundation scholarships / Leg Jung Han Foundation scholarships / Jang Choong Seok Foundation scholarships, etc.

## Dynamic and full of dreams GNU Colleges

GNU Colleges educate students to become practical professionals through theory, hands-on experience and interdisciplinary studies. We also provide students with a variety of educational opportunities so they can lead in society and industries of the future.

#### **College of Humanities**

인문대학은 어학, 문학, 사학, 철학을 포함해 인간과 세계에 대한 근원적인 진리와 가치를 다루는 인문학을 체계적으로 교육하고 있으 며 사회와 소통하는 인문학, 문화를 담아내 는 인문학, 세계와 함께 하는 인문학으로 변 화·발전하고 있습니다.

Department of Korean Language & Literature Department of German Language & Literature Department of Russian Studies

Department of French Language & Literature Department of History

Department of English Language & Literature Department of Chinese Language & Literature Department of Philosophy

Department of Korean Classics in Chinese
Department of Ethnic Dance

사회과학대학은 연계전공, 복수전공, 부전공, 교직이수 등 다양한 학습 제도를 활용해 주체적으로 교과 과정을 설계할 수 있도록 지원하고 있으며 졸업 후 관계, 재계, 언론계, 학계 등으로 진출하여 지역 사회와 세계 사회과학 발전에 기여하고 있습니다.

Department of Economics
Department of Social Welfare
Department of Sociology
Department of Psychology
Department of Political Science
Department of Public Administration

#### **College of Natural Sciences**

자연과학대학은 WCU 사업단, BK21사업단등 대형 국책연구·교육 사업단을 유치하여 그 실력을 인정받고 있으며, 효율적인 연구환경과 우수한 교수진을 통해 첨단과학을 지향하고 연구하는 대학으로 발전하고 있습니다

#### **Graduate Schools of Professional Studies**

#### **Graduate School of Medicine**

The GNU Graduate School of Medicine offers medical education at the professional level, with an infrastructure designed to develop medical expertise and relationship skills.

Textiles

**Products Engineering** 

Division of Crop Science

#### **Graduate School of Business**

The Graduate School of Business aims to develop skilled business professionals who will take a leading role in an age of globalization. The School offers an ideal environment for scientific research on business strategies, for graduates to boost the competitiveness of the companies that employ them.

#### **Graduate School of Education**

The mission of the Graduate School of Education is to produce leading educators with a sense of educational mission, professionalism and creativity, under sound educational tenets. With 31 departments, this is the largest School of Education in the nation.

#### **Graduate School of Convergence** Science & Technology

The Graduate School of Convergence

Science & Technology was established to develop leading professionals who will serve society through technological breakthroughs and industrial development. At present, Master's degrees are offered in 29 majors from nine departments (evening classes only). Two contract departments and a non-degree course for advanced industrial management are also

#### **Graduate School of Public** Administration

Developing professional contributors to national and regional development is the main objective of the Graduate School of Public Administration. The School also provides continuing education to people who currently hold positions in government administration.

#### The Graduate School of Aerospace **Specialization**

The Graduate School of Aerospace Specialization was established through collaboration between Gyeongsang National University, the Korea Aerospace Research Institute, and Korea Aerospace

Industries, Ltd., to develop technology and human capital in the national aerospace

#### **Graduate School of Public Health**

With the call for specialized institutions in such areas as health, medicine, environment and food, the Graduate School of Public Health has been established to train people to play a pivotal role in health-related projects to improve health in local communities, and administration of health information and

#### **Graduate School of Food & Medicine**

Through the use of modern technologies and research, food and medicine can be produced and managed in a safer, more efficient way. Ultimately, the School's aim is to increase public welfare and health.

#### **Graduate School of Land & Housing**

The Graduate School of Land & Housing was established to plan land use and housing in the nation, and particularly to foster the human capital required by the Korea Land & Housing Corporation and other public bodies related to construction.
