

ERIH Initial List: Philosophy (2007)

European Reference Index for the Humanities (ERIH) is a project jointly sponsored by ESF and the European Commission ERA-Net project "Humanities in the European Research Area" (HERA) (Contract no.: ERAC-CT-2005-0161179). It comes under work-package 7 (Research Infrastructures).

The ERIH lists will help identify excellence in Humanities scholarship and should prove useful for the aggregate benchmarking of national research systems, for example, in determining the international standing of the research activity carried out in a given field in a particular country.

As they stand, the lists are not a bibliometric tool. The ERIH Steering Committee and the Expert Panels therefore advise against using the lists as the only basis for assessment of individual candidates for positions or promotions or of applicants for research grants.

Expert Panel Scope Note: This panel covers every branch of philosophy, incl. logic, metaphysics, epistemology, ethics, and every period in the history of philosophy. Journals in neighbouring fields, such as linguistics and cognitive sciences, are included, in so far as they welcome and/or regularly publish papers by philosophers. Philosophy of science has been largely excluded, as it is covered by another Panel.

Applied ethics is not covered (e.g.: business ethics, medical ethics, etc.).

Besides linguistics and philosophy of science, there is overlap with other fields such as classical studies, Oriental and African Studies, psychology, religious studies.
