

# 2018-2019 Autumn Semester II Course

D, E, F Groups	September												October																																																			
	17	18	19	20	21	22	24	25	26	27	28	29	1	2	3	4	5	6	8	9	10	11	12	13	15	16	17	18	19	20	22	23	24	25	26	27	29	30	31																									
9:00	Molecular Biology Exam 10.10.18												ex am	Nerve system histology Exam 30.11.18																																																		
10:00																																																																
11:00																																																																
12:00																																																																
13:00	Medical Microbiology Exam 6.10.18												ex am	Nerve system Anatomy Exam 30.11.18																																																		
14:00																																																																
15:00																																																																
16:00																																																																
17:00	Nerve system Physiology Exam 30.11.18												ex am	Respiratory System Anatomy Exam 18.01.19																																																		
18:00																																																																
9:00																																Nerve system Biochemistry Exam 30.11.18												ex am	Behavioral science Exam 21.12.18																		Respiratory System physiology Exam 18.01.19	
10:00																																																																
11:00																																																																
12:00																																																																
13:00	Respiratory System Biochemistry Exam 18.01.19												ex am	Respiratory System Physiology Exam 30.11.18																																																		
14:00																																																																
15:00																																																																
16:00																																																																
17:00	Respiratory System Histology Exam 18.01.19												ex am	Respiratory System Biochemistry Exam 18.01.19																																																		
18:00																																																																
9:00																																Respiratory System Biochemistry Exam 18.01.19												ex am	Respiratory System Histology Exam 18.01.19																			
10:00																																																																
11:00																																																																
12:00																																																																
13:00	Respiratory System Histology Exam 18.01.19												ex am	Respiratory System Biochemistry Exam 18.01.19																																																		
14:00																																																																
15:00																																																																
16:00																																																																
17:00	Respiratory System Histology Exam 18.01.19												ex am	Respiratory System Biochemistry Exam 18.01.19																																																		
18:00																																																																
9:00																																Respiratory System Histology Exam 18.01.19												ex am	Respiratory System Biochemistry Exam 18.01.19																			
10:00																																																																
11:00																																																																
12:00																																																																
13:00	Respiratory System Histology Exam 18.01.19												ex am	Respiratory System Biochemistry Exam 18.01.19																																																		
14:00																																																																
15:00																																																																
16:00																																																																
17:00	Respiratory System Histology Exam 18.01.19												ex am	Respiratory System Biochemistry Exam 18.01.19																																																		
18:00
