

# CREATIVITY MEETS TECHNOLOGY MEETS COMMUNITY

The ultimate creative house

# Oh, hi there!

Welcome to the **HOME** of creators!

We are a collaborative **#makerspace** with modern tools for learning, making, and sharing.

We are a growing knowledge-sharing **#community** where fellow creators connect, share resources and ideas.

**ACTIVITIES**

# ENGINEERING

Prototyping  
Product design  
Consulting  
3D printing  
Electronics  
Wood  
Metal

ACTIVITIES

# SMART MEDIA

VR / AR / MR

Startup incubation

In all the fields related to  
technologies, creativity &  
entrepreneurship.

ACTIVITIES

# INFRASTRUCTURE for events

**INFRASTRUCTURE  
for workshops**

**INFRASTRUCTURE  
for work**

**INFRASTRUCTURE  
for creativity**

A blue table tennis table with a black frame and a white net is positioned in a locker room. The table is on wheels and has a black side panel with the 'Sponeta' logo. On the table, there are two orange paddles and a yellow ball. The background shows a row of white lockers with black frames and handles. The text 'INFRASTRUCTURE for leisure' is overlaid on the right side of the table.

**INFRASTRUCTURE  
for leisure**

**Sponeta**  
MADE IN GERMANY

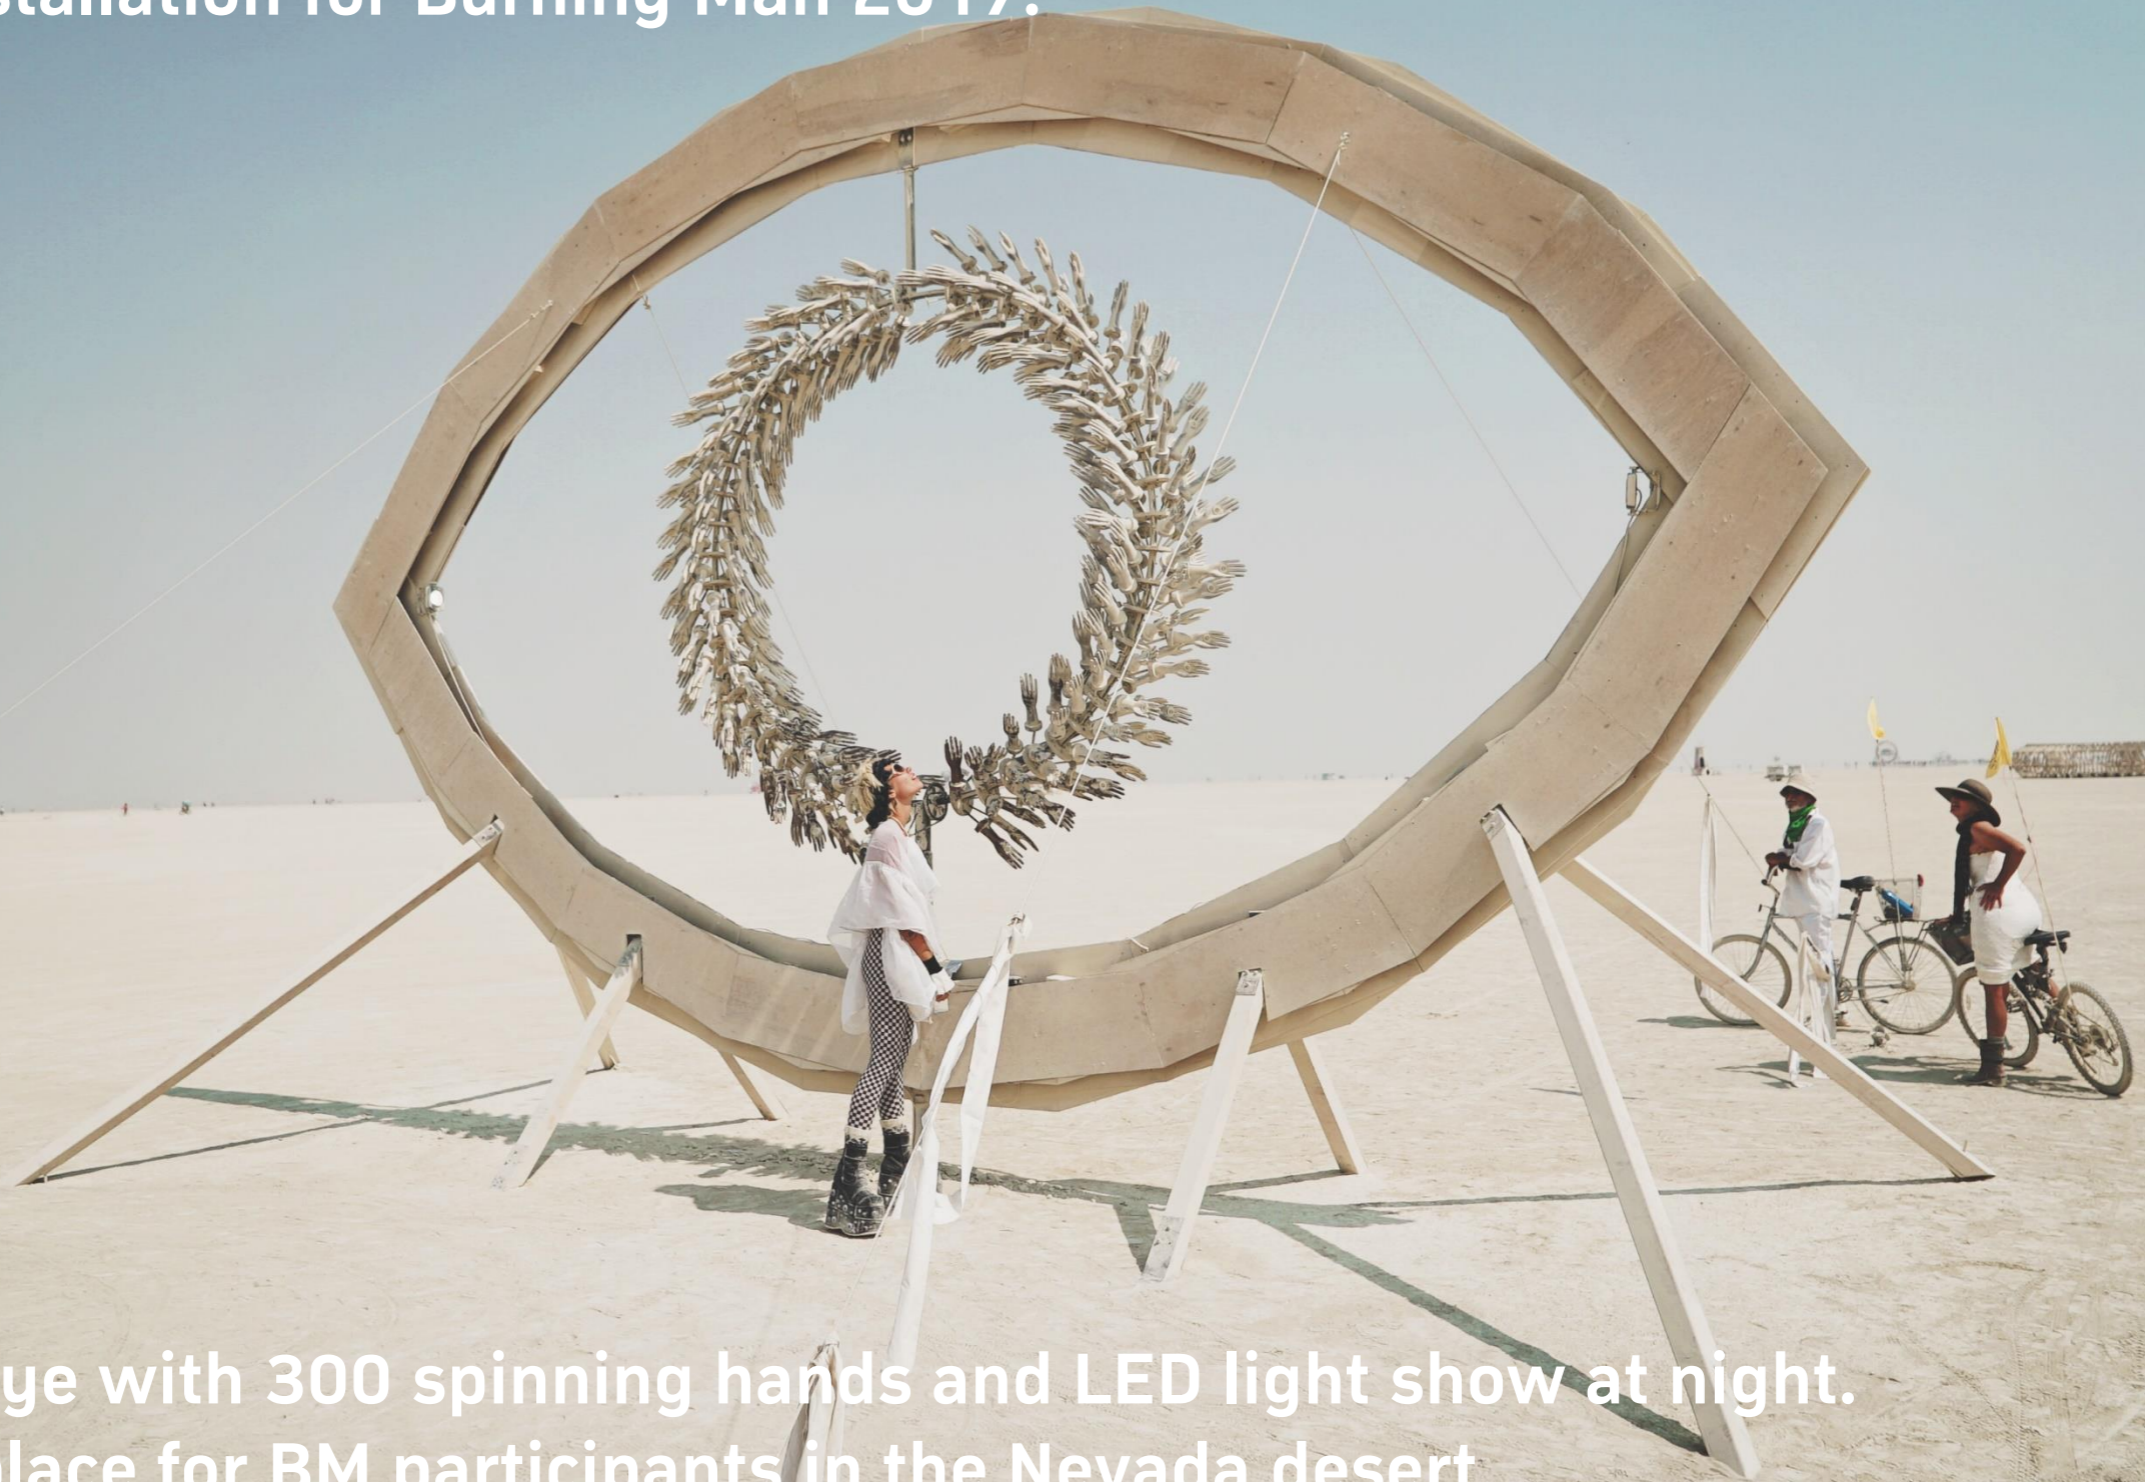

MADE IN GERMANY

A large, intricate sculpture composed of numerous light-colored, weathered hands reaching upwards. The hands are mounted on a complex wooden structure of poles and circular plates. The background is a clear, bright blue sky. The overall composition is dynamic and upward-pointing, symbolizing collective effort and growth.

# OUR PROJECTS

# DANCE FOR THE DAWN

Kinetic installation for Burning Man 2017.

Wooden Eye with 300 spinning hands and LED light show at night.  
Spiritual place for BM participants in the Nevada desert.

# DANCE FOR THE DAWN

# FLYING HOUSE

A hot air balloon with orange and blue sections is flying in a clear sky. The basket is a wooden house, and it is flying in a clear sky. The balloon is partially visible in the upper right corner, and the basket is in the lower right corner. The sky is a gradient of light blue and white.

A project with TELE2 – the biggest telecommunication company in Lithuania.

Wooden house weighting 1,5 tons flying around Lithuania demonstrating the high coverage of „Free Internet“.

# FLYING HOUSE

The image shows a minimalist interior space, likely a desk or workspace. On the left, a light-colored wooden wall features a modern, circular clock with a thin metal frame and a white face. Below the clock, a wooden cutting board and a white thermal mug are placed on a light-colored wooden desk. In the center, a large, vibrant green fern plant is positioned in a clear glass container. To the right, a black metal lamp with a simple, industrial design stands on a dark surface. The background is a bright, white wall, possibly a window or a light-colored wall, which creates a clean and airy atmosphere.

The flying house had full interior and internet working in any area of Lithuania.

# FLYING HOUSE

# #nanoJesus

Global viral project aimed at attracting global attention to Lithuania.  
We produced a nano sized nativity scene and gave it to Pope Francis.

Initiative was awarded by a number of PR awards and registered in  
the World Guinness Record book.

# #nanoJesus

Nano nativity scene in the eye of a needle.

# #nanoJesus

Baby Jesus smaller than average human cell.
